Alternatively scan the QR code above for more information on servicing your Bristan product.

BRISTAN

Recommended General Cleaning Advice

Bristan products are made from premium materials, with hand polished, electroplated, PVD or EPD finishes.

Your Bristan tap or shower should be regularly cleaned with warm water, a mild pH-neutral liquid soap, and polished with a soft cloth. Any residues from soap, toothpaste, shampoos and shower gels can cause blemishes if not rinsed off straight after use.

Household bleaches and cleaners contain harsh chemicals and may damage the surface finish. Avoid using abrasive cloths, scouring pads, scrub sponges, steel wool or anything similar.

By regularly giving your tap and shower a quick wipe with water and a microfibre cloth, you'll maintain an everyday shine and stop any major stains from settling in.
